Programming Languages: Typescript, Javascript, Python, Java, C#, HTML, CSS
Full Stack Development: React, MUI, Tailwind CSS, i18n, Next.js, Node.js, PostgreSQL, Kysely, Kubernetes, Husky
AI Development: Claude Code, Skill Development, Sandcastle, AI SDK, “AI Coding for Real Engineers” alum
AWS Services: Lambda, EC2, API Gateway, CDK, S3, ECS, SQS, SNS, RDS, CloudWatch, Cognito, DynamoDB
Tools: GitHub Actions, Keycloak, Google Analytics, Matomo, Azure, AWS, Heroku, Unity, Game Maker

EXPERIENCE

See portfolio of work at arendpeter.com

Equal Vote Coalition, Eugene, OR (Remote)
Program Director, Mar 2026 - Present
Production Lead, Jan 2024 - Mar 2026
Full Stack Developer (volunteer), Nov 2021 - Jan 2024

- Led team of volunteer engineers to build BetterVoting.com. Has hosted 2,000+ elections, and 20,000+ votes.
- Built the bulk of the frontend with React and Typescript, and integrated i18n for localization.
- Architected Node.js backend to include end-to-end testing, and generalize to 8 voting methods.
- Facilitated infrastructure migrations between Heroku, AWS, Azure and Kubernetes.
- Maintained stakeholder relationships. BetterVoting is now used and trusted by Indivisible California, the Python Core Developers Steering Council, and multiple political parties.
- Built national onboarding process for 3,000+ cross-functional volunteers across 12+ states.
- Served as Board Director at STAR Voting Action (sister org to Equal Vote).

Amazon AWS, Seattle, WA
Software Development Engineer II, Sep 2018 - Jun 2021
Software Development Engineer I, Jun 2017 - Sep 2018
Software Development Intern, Jun 2016 - Aug 2016

- Architected greenfield Python-based search platform under AWS CodeCommit to be integrated with 12+ internal teams.
- Built microservices on AWS platforms including Lambda, CDK, S3, EC2, ECS, SQS, and DynamoDB.
- Automated Amazon Linux deployments for 3+ new AWS regions, utilizing ITAR credentials for government deployments.
- Inherited legacy Java project that was utilized by 100s of teams across the company, and self-onboarded to add features.
- Mentored junior engineers who have since reached senior level, and provided mentorship for internal upskilling efforts.

Star Garden Games, Cumming, GA (Remote)
Founder & Lead Programmer, Oct 2015 - Present

- Developed and shipped 3 award-winning, globally-featured video games, including 2 mobile games and a steam release.
- Word Factori has sold over 47k copies on Steam with $200,000+ in sales.
- Architected event driven systems to give our designer full independence over particles, sound, etc.

EDUCATION

Georgia Institute of Technology, Online Masters in Computer Science specializing in AI (paused) - Dec 2020
Georgia Institute of Technology, Bachelors in Computer Engineering - Dec 2016
University of North Georgia, Bachelors in Math - Jun 2014

TESTIMONIALS

- “Arend has an uncanny eye for knowing exactly what needs to be done.” Sara Wolk, Equal Vote - Ex. Director
- “Arend’s ability ranks in the top 5% of all students I’ve worked with.” Bryson Payne, UNG - CS Director
